

Anti Radiation Mobile cover benifites:-

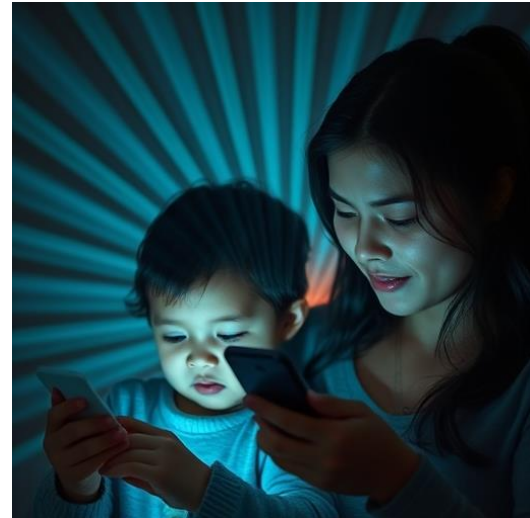

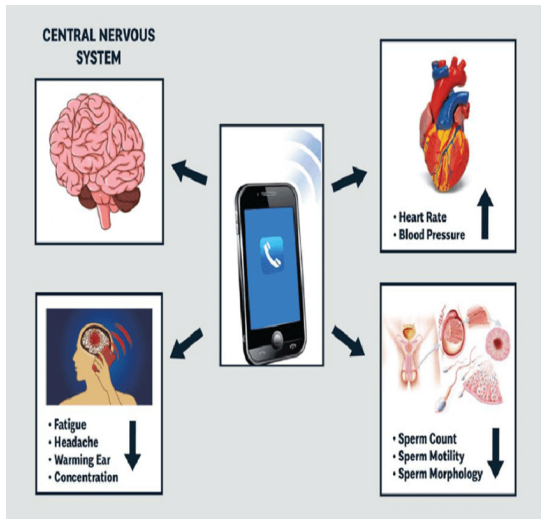

We use mobile for 8 to 10 hours a day, be it for social media, cooking classes, job talks, gossips, business meetings, talking to loved ones, watching a movie, watching your favorite serial and many more, but what? You know - where, mobile has become our fourth necessity, and it is impossible to imagine our life without it.

Whenever we use a mobile, a radioactive environment is created around it. Due to which radiation spreads, whenever we use mobile, this radiation harms us and affects our physical ability and mental ability and acts like a slow and sweet poison.

This mobile radiation is hollowing our and our family's body day by day (especially our and children's health).

Harm caused by radiation of mobile phone:-

(1.) Skin becoming dull, rough or dry.

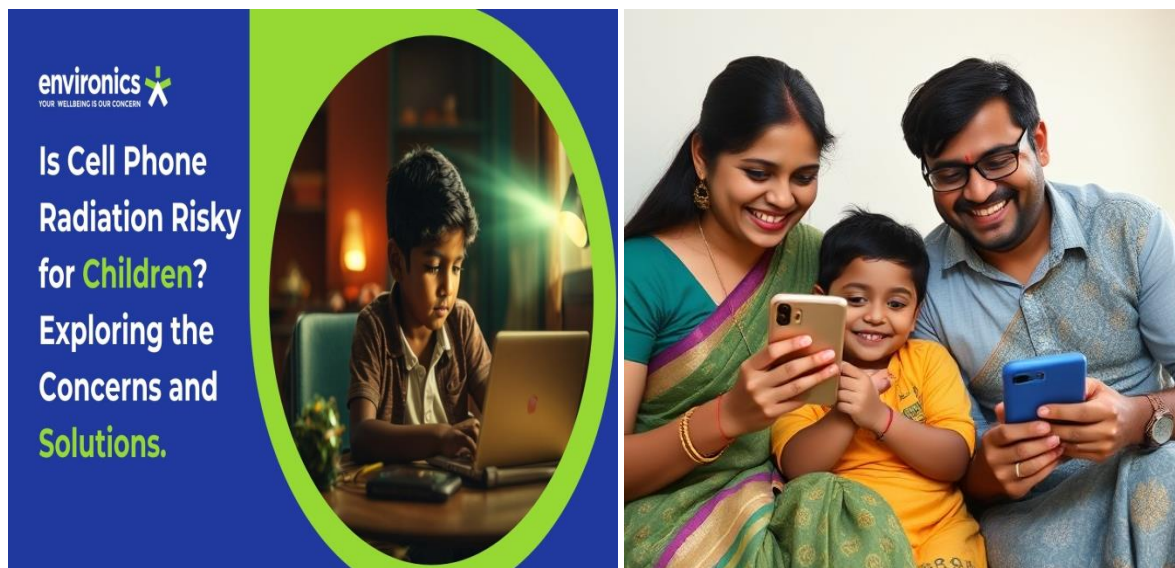

- (2.) Premature wrinkling of the skin.
- (3.) Dark circles appear under the eyes.
- (4.) Change in the shape of the face
- (5.) Weight loss or gain means unbalanced weight.
- (6.) Hair becoming dry, weak and thin.
- (7.) Graying of hair
- (8.) Frontal hair fall or baldness.
- (9.) Decrease in ability to work.
- (10.) Feeling irritable
- (11.) Headache, bone pain or back pain.
- (12.) Abnormality in hormonal changes in the body
- (13.) Decreased eye power.

All these effects are seen in people of 16 years of age and above and the effects that we see on unintelligent or younger children are even more dangerous and small children are not even able to express their problems verbally. It is the responsibility of the parents and us to protect them from these problems.

This mobile radiation has the most adverse effects on children who are below 16 years of age and whose physical and mental development is yet to happen, because the body and brain of these children are still raw and this radiation is very dangerous. Is.

Side effects of Mobile radiation on small children:

[Click here to read the full article](#)

- (1.) Dryness of the skin, or appearance of red rashes.
- (2.) Decrease in eye power at young age.
- (3.) Obstruction in the overall development of the brain.
- (4.) Irregularity in sleeping. waking up again

(5.) Weakness in physical structure and strength.

(6.) Weakness in bones and thinning of bones.

(7.) Food and drink should not touch the body.

(8.) Children's height should remain short.

Due to all these reasons, your child will not be able to develop fully, which will become a danger for him in the future because the world is run by the strong and the weak are always looked upon with pity.

Our mobile cover reduces this radiation by 65%-90% which is a complete solution to these problems.

Where earlier the use of a mobile cover was limited to protecting your mobile, or making your phone look beautiful. We have brought it in a healthy form which makes proper use of your invested money for the safety of you and your children.
